

It is my understanding that the Consumer Bankers Association is trying to weaken the Indiana Telephone Privacy Law by asking the FCC to apply the federal "established business relationship" exemption to consumers in Indiana.

I am writing to ask that the FCC deny this request. The Indiana Telephone Privacy Act has been a real blessing for most Hoosiers, protecting us from unwanted and unending calls from various businesses.

Applying this federal exemption will expose most Indiana citizens to a flood of annoying calls that disrupt our attempts to have a quiet and peaceful evening with our families and loved ones.

Please protect the public interest and do not cave in to the special interest of this Bankers' Association.

I appreciate your hard work on our behalf.

Sincerely,

Daniel J. Reagan
